Julia M. Schmidt

PhD Candidate in Economics | Université Paris Dauphine – PSL
julia.schmidt@dauphine.psl.eu | julia-m-schmidt.github.io | Google Scholar

Research interests: Macroeconomics; economics of AI and data; firm productivity and dynamics; financial frictions; climate policy.

Education and Research Visits

Université Paris Dauphine – PSL 2024–present

PhD in Quantitative Economics (expected 2027). Supervisor: Lise Patureau.

Universitat Pompeu Fabra, Barcelona Oct.–Dec. 2025

Visiting researcher. Host: Isaac Baley.

Université Paris Dauphine – PSL 2022–2024

MSc in Quantitative Economic Analysis, research track in macroeconomics/finance.
Thesis: data assets, business cycles and the skill premium (18/20); supervisor: Fabien Tripier. Completed alongside full-time employment at the OECD.

Sciences Po, Paris 2015–2018

MSc in International Economic Policy.

Ludwig Maximilian University of Munich 2011–2015

BA in Communication Sciences and Economics.

Research in Progress

- **Data, Software, and Credit: Bank Lending Constraints and Digital Investment in Europe**
  With Lise Patureau, Fabien Tripier, Marine Charlotte André and Julie Delanote.
  Linked European firm and bank data to study financing constraints, investment in software and databases, and productivity.
- **The Carbon Cost of Compute: AI, Data Externalities, and Climate Policy**
  Solo-authored. Dynamic general-equilibrium model of AI production, carbon-intensive compute, data externalities and optimal carbon taxation.
- **Two Faces of Data: Productivity and Markups in the Digital Age**
  With Isaac Baley and Alejandro Rábano. A model of innovation and marketing data, combined with French firm-level evidence on productivity and markups.

Journal Articles

Professional Experience

OECD — Economist and Data Scientist Mar.–Sept. 2024

Science, Technology and Innovation Directorate. Led the development of the OECD AI Index, including its measurement framework and database; managed consultants and data scientists.

OECD — Researcher / Data Analyst Oct. 2021–Feb. 2024

Statistics and Data Directorate. Developed machine-learning approaches to nowcasting trade and productivity; led NLP-based research on data-intensive work. Contributed to the *Handbook on Measuring Digital Trade*.

OECD — Junior Analyst May 2019–Sept. 2021

Co-developed a cross-country statistical-capacity indicator platform with international organisations; drafted country reviews and policy briefs.

Bertelsmann Foundation — Project Manager Sept. 2018–Apr. 2019

Research on EU innovation policy and governance; authored policy briefs and presented findings to the European Commission.

Teaching

Université Paris Dauphine – PSL

- Introduction to MATLAB Programming, master's level, English (Fall 2025 and Fall 2026).
- International Macroeconomics: Short and Medium Term, undergraduate, French (Fall 2026).
- International Macroeconomics: Long Term, undergraduate, French (Spring 2026).

Selected Conferences and Seminars

Scheduled LEDa PhD Presentation Workshop, Paris Dauphine; ECB, *Central banking economic modelling frontiers*, Frankfurt; Banque de France, *11th Green Finance Research Advances*, Paris .

2026 International Workshop on AI in the Product, Factor and Financial Markets, Urbino; EEA-ESEM Congress, Dublin; 7th World Congress of Environmental and Resource Economists, Lisbon; 24th ZEW Conference on the Economics of ICT, Mannheim; 3rd Global INTAN-Invest Conference, Rome; LEDa PhD Workshop, Paris Dauphine; LEDa PhD Retreat, Cévennes.

2025 UPF-CREI Macroeconomic Lunch, Barcelona; Paris Dauphine PhD Seminar; ESCoE Economic Measurement Webinar (discussant).

2024 Banque de France & OECD Innovation Lab Virtual Conference; *Navigating AI Futures: A Comparative Look at Emerging International Rules* (roundtable).

2023 2nd Workshop on Digital Economics, Cambridge; OECD-KOSTAT Conference on Novel Data for Economic Resilience, Seoul; ESCoE Conference on Economic Measurement, London.

Academic and Professional Service

- Referee: *Economic Modelling*.
- Elected PhD student representative, Université Paris Dauphine – PSL.
- Co-organiser and panel chair, *The Economics of Data*, Cambridge (September 2026), with Anmut, Stanford Digital Economy Lab and the Bennett School of Public Policy.
- Selection committee member, German National Academic Foundation.
- Co-led the OECD R/Python/Git Community of Practice; organised coding mentoring programmes (2022–2024).

Grants, Scholarships and Additional Training

Research funding, Stanford Digital Economy Lab (€15,000; co-financed by SDFI, LEDa and AAFMI)	Sept. 2026
LEDa, Paris Dauphine Doctoral Programme, research funding (€3,500)	Oct. 2025
Data Economy: Models and Tools, Barcelona School of Economics / UPF	July 2025
Summer Institute in Computational Social Science, University College London	June 2025
German National Academic Foundation (Studienstiftung), scholarship	2016–2018

Technical Skills and Languages

Methods: Quantitative macroeconomic modelling, firm-level econometrics, machine learning, nowcasting and natural language processing.
Programming: R, Python, MATLAB, SQL, Stata, Git, AWS, LaTeX.
Languages: German (native), English (C2), French (C1); Spanish (B1 comprehension, A2 spoken).
